## The Dollars and Sense of

## JAP-A-LAC

Made in 21 Colors  
and Natural (Clear)  
Removes everything from Collar to Carpet

Quite aside from the use of JAP-A-LAC as a beautifier of homes, it has wonderful economical properties.

JAP-A-LAC saves money in two different ways.

In the first place, it saves money by adding years to the life and wearing properties of woodwork, furniture, floors, etc.

In the second place, JAP-A-LAC saves actual dollars and cents by allowing you to do the work yourself, and JAP-A-LAC is so easy to use that it is a genuine pleasure to use it, for there is a fascination about seeing an old, worn and shabby looking object renew its youth beauty and strength under one's own hands.

JAP-A-LAC is a most economical covering for floors. A gallon is sufficient to JAP-A-LAC the entire floor of an average size room—a quart for a wide border. JAP-A-LAC is made in all sizes from 10c cans up.

Ask about it in our Paint Department.
